

COMPANY & PRODUCT INFORMATION

Quality, Service, Value, Technical Support...

About us...

In 1926, North Industrial Chemicals Company (NIC) was founded in York, PA as a chemical raw material supplier of both organic and inorganic materials to a wide variety of industrial markets. An ISO 9002 certified company now 81 years old, NIC remains a financially strong, family owned business.

Established as a sister company to NIC in 1986, Compound Technology, Inc. (CTI) is a custom toll blender and formulator of liquid and powder products serving the following industries:

- Metalworking
- Wire Drawing
- Steel
- Automotive
- Aerospace
- Agricultural Equip.
- HVAC
- Electroplating
- Metal Fabrication
- Plus many others

Custom blends are produced to exacting customer specifications, packaged, and shipped to customer sites in CTI's own fleet of trucks.

SPECIALIZED PRODUCTS

CTI's custom formulated products for metalworking are designed to clean and to protect metals from corrosion, loss of paint adhesion, high humidity, corrosive seashore environments, or to provide temporary protection during shipment. In addition, we supply the Industrial Market with cleaners for floors, food processing equipment, as well as many other cleaning applications.

PRODUCT	METALWORKING APPLICATION
Alprep	Aluminum deoxidizers, chromium chromate and chromium phosphate pre-treatments.
Hydrotech	Acidic cleaners, scale removers and etchants.
Northstrip	Paint strippers (hot alkaline & cold solvent)
