NORTHQUEST 2070

About us.....

- Founded in York, PA in 1921, NM&C remains a financially stable, family owned producer of World Class Molybdenum & Tungsten compounds serving the Metal Finishing, Agriculture, Water Treatment, Pigment, and Antifreeze markets worldwide.
- NM&C maintains over \$2 million inventory of finished goods and ore concentrates to guarantee our customers a stable and secure source of molybdate in the event of a crisis or shortage.
- All orders for one drum to truckload quantities are shipped the next business day or as requested.
- NM&C molybdates are American Made and backed by full 'Cradle-to-Grave' product liability.
- NM&C is unrivaled in customer service and technical support.
- Strict Quality Assurance programs and ISO 9002 practices assure products of the highest quality and consistency.

Description: NORTHQUEST 2070 is a high molecular weight acrylic acid/acrylamide co-polymer. It is highly effective as a dispersant and scale inhibitor in industrial water treatment, boiler water treatment, detergent as well as in all types of water based systems. NORTHQUEST 2070 is an excellent alternative to the higher priced Buckman BSI 84.

Features:

- Excellent Dispersant
- Low threshold inhibition

Technical Specifications: (AA/Acrylamide Co-polymer)

Appearance	Clear, colorless to pale yellow liquid
pH (neat)	6.0—6.5
Specific Gravity @ 25° C	1.15—1.20
Viscosity @ 25° C, cps	100—400 cps
Molecular weight	10000
Total Solids	Min. 40%

APPLICATIONS: NorthQuest 2070 inhibits deposition of calcium/magnesium (carbonates, sulphates), barium sulphate and other low solubility salts, which are responsible for the depositions of scales on surfaces. This polymer shows good activity over a wide range of pH, high water hardness and temperature without precipitation. The product is non-foaming providing good environmental acceptability.

PACKAGING: Available in 551.15 lb. drums.

SAFETY: Refer to MSDS for precautions.
